

Call for partners

Fora Hvidovre is looking for partners for an Erasmus+ KA 2 – Strategic Partnership project.

About the project:

There is a lack involvement in civic life from young people in Europe. A main reason for that is the lack of knowledge and information regarding community organizations. The project aims at providing young people with an extensive collection of tools to be able to start their own organizations, at providing assistance along the way and at promoting entrepreneurial spirit.

The planned project outputs include:

1. A creative and interactive website containing the tools and methods.
2. Applications for mobile devices enabling the users to be connected with other community organizations throughout the world.
3. Local hotspots, with trained staff, to provide assistance for creating and maintaining their community organizations.

In order to be able to create these outputs, the partners will be expected to take part in mapping out civil society organizations in their country and conduct into their young founders, their challenges and motivations.

Fora Hvidovre is accepting the applications of:

1. Partners who have experience with web design and possibly mobile apps.
2. French partners who would also be involved with the translation of the materials from English to French.

Interested organizations are expected to send a short description of themselves, as well as the PIC number and some examples of their previous works by **April 10** to the following e-mail address:
